

DIRECT STUDY LEADS

In addition to more than 400 sponsors and CRO's that use the Directory and Web-Site to contact YOU about enrollment in upcoming funded research studies, there are also many study opportunities that we will contact you about directly on the sponsors behalf!!

For example, if a sponsor/CRO is seeking sites for an upcoming Asthma trial, they may contact us, asking for our assistance screening our members for interest!! If you have the patient population the protocol specifies, we will contact you and submit your name directly to that site-selection specialist!

This is included as part of your membership! The long-standing relationships we have developed and maintained with industry since 1990 places Research Investigator's Source in a unique position to be able to refer many study opportunities directly to YOU!

Here are just a few of the studies WE have contacted our members about....

Alzheimer's Disease	Irritable Bowel Syndrome
Anal Fissure	Knee Arthroplasty
Anemia with Chronic Kidney Disease	Lymphoma
Asthma	Metastatic Anal Cancer
Asthma (Severe)	Migraine Headaches
Atopic Dermatitis	MRSA
Biliary Cancer	Neurogenic Detrusor Overactivity
Bladder Cancer	Non-Small Cell Lung Cancer
Breast Cancer	Obesity
Cdiff Colitis	Oral Cavity Cancer
Cdiff Colitis Vaccine	Osteogenesis Imprefecta
Chronic Idiopathic Constipation	Pediatric Asthma
Chronic Obstructive Pulmonary Disease	Pediatric Diabetes
Chronic Peripheral Neuropathic Pain	Pediatric Reactive Airways
Colorectal Cancer	Pediatric Sepsis
Complicated Skin Infections	Pediatric Respiratory Syncytial Virus
Complicated Urinary Tract Infections	Pneumonia (Community-Acquired)
Dermatomyositis	Pneumonia (Hospital-Acquired)
Diabetes Mellitus	Pneumonia (Ventilator-Acquired)
Diabetes Mellitus with COPD	Primary Immunodeficiency (Adult & Pediatric)
Diabetes Mellitus with Kidney Disease	Psoriasis
Endometriosis	Pulmonary Exacerabation
Fallopian Tube Cancer	Relapsed Hodgkin's Lymphoma
Fertility	Rheumatoid Arthritis
Follicular Lymphoma	Rosacea
Glioblastoma	Sickle-Cell Anemia
Hematologic Cancer	Small-Cell Lung Cancer
Heart Failure	Systemic Lupus Erythematosus
Herniated Disc Pain	Therapeutic Plasma Exchange
Herpes Zoster Infection	Tonsillitis
Hypertriglyceridemia	Ulcerative Colitis
Influenza (Severe)	Uterine Fibroids
Interstitial Cystitis	Venous Thromboembolism
